Qualitative Feedback

1. Please comment on the course with respect to organization, meeting of stated objectives, and clarity of course requirements.

The homework length had to be altered halfway through the course because it was excessive, which REALLY hurt my grade even though I did much better with the shorter homework.

2. Please comment on the instructor with respect to knowledge of subject, presentation of material, responsiveness to questions, and availability for outside help.

Materials were lacking, very hard to refer back to because they weren't comprehensive.

3. Please comment on the usefulness of the reading and writing assignments.

Assignments were work heavy, took me 5 hours a week at first. I also disliked having to turn them in on Mondays / being assigned Mondays

4. Other comments.

Not a bad prof, just way too hard

Qualitative Feedback

1. Please comment on the course with respect to organization, meeting of stated objectives, and clarity of course requirements.

In general expectations + assignments were clear. That said, I think it would be very helpful to either add visuals of trees on the handouts or post examples, because it was sometimes hard to keep up/read hand writing on the board.

2. Please comment on the instructor with respect to knowledge of subject, presentation of material, responsiveness to questions, and availability for outside help.

Very good on knowledge, questions and availability. Once again, presentation could be a little more organized/explicit.

3. Please comment on the usefulness of the reading and writing assignments.

Assignments were very heavy at first, much more manageable after the change. I think adding a reading could help because sometimes things were a little glossed over in class.

4. Other comments.

I think Dr. Gluckman is engaging and passionate about Syntax. I also think that this course tried to cover too much material in not quite enough time. There were many weeks where we did not get through handouts or where the discussion TA had to introduce new concepts or re-explain ^{important} things that were glossed over. Thanks!

Qualitative Feedback

1. Please comment on the course with respect to organization, meeting of stated objectives, and clarity of course requirements.

The objectives and organization of class materials were excellent.

2. Please comment on the instructor with respect to knowledge of subject, presentation of material, responsiveness to questions, and availability for outside help.

The presentation in regards to schedule could have been better, though this may be the fault of the "rhythm" of the course rather than the material. He is a good lecturer otherwise.

3. Please comment on the usefulness of the reading and writing assignments.

It often felt as though the best understanding was after the assignments were over.

This was one of the hardest classes I've taken during my college career. I feel as if the HW's were graded with very high standards - this did not feel like a 300 level class.

I feel like everything was straight forward for how the class will work.

2. Please comment on the instructor with respect to knowledge of subject, presentation of material, responsiveness to questions, and availability for outside help.

The provided handouts were helpful, however if there's not going to be enough time to do all of the examples in class, it would be nice to have more examples done on the handouts to be more useful on homework.

3. Please comment on the usefulness of the reading and writing assignments.

The homework was challenging, but the repetition was helpful.

The assignments for HW are more difficult than those problems in discussion sections—discussion sections in ling. typically have the hardest problems to ensure we are set up for success with the HW.
4. Other comments.
The HW being 50% of grade is not fair considering it is frequently our first real attempt at concepts/problems
